

Gas Assist Controller

JST Developed Gas Assist Controller

"Offers customers a complete gas assist system for their injection molding applications.

This integrated option will allow molders to maximize their production efficiency by implementing gas assist solutions that "

- *Reduces clamp tonnage*
- *Reduces cycle time*
- *Saves resin*
- *Improves part quality*
- *Design freedom*

Standard scope of supply

- Power ON/OFF switch with light.
- HMI touch panel 5.7"
- Input signal monitor page.
- Output pressure monitor page.
- Automatic purge setup.
- Inlet low pressure alarm buzzer.
- Save data available up to 10.

Inlet Pressure

up to 5000 psig
up to 350 bars

Outlet Pressure

up to 5000 psig
up to 350 bars

Power

220 V (50 Hz)

Dimensions

L x W x H (mm)
(350 x 350 x 1,220)

Weight

34 (kg)
